To curve the metro-shift in the city's favor, leaders will try to implement revitalization projects. This includes urban renewal projects that encourage gentrification or suburbanization. Undeniably these metro-shifts will affect other cities in the surrounding areas, but the cities enacting these policies are trying to keep their city alive. It is a continuous battle to balance policy, tax base, and human capital.

The Effects of Revitalization

employees to train to keep them on board. So, when the company leaves the zone, they will try to carry their
